Note: HealthNet began contracting with AHCCCS on October 1, 2013. As such, they did not have Prospective rates for September 2013 and their HIF adjustments are therefore applied to their PPC rates for that month.

Because the Adult Group <= 106% was frozen through December 31, 2013 HealthNet should not have received any members for this risk group during calendar year 2013 and thus no HIF fees are associated with 2013 revenues for this risk group.
